The tribes and some community members have always had doubts about the deferral and the state's ability to follow through.
Local government officials like the idea of not being on the npl and the idea of a public private partnership.

Outstanding issues:

past cost resolution between arc and epa. Removal of epa orders on arc

Tribe/state/epa MOUs.

Nevada/arc orders on consent.

I can elaborate next week.

So, who is pleased with the deferral to the state and who is not? What are the outstanding issues at this time?
